Seja nadgrajuje lansko razpravo o krožnem gospodarstvu v vlogi makroregij EU. Govorili bomo o novostih in napredku, ki so jih makroregije EU dosegle pri spodbujanju pobud krožnega gospodarstva v preteklem letu. Posebno pozornost bomo namenili vodilni vlogi makroregij pri uvajanjih sprememb, navdihovanju regionalnih pobud in razvoju novih poslovnih modelov. Razprava bo obsegala tudi izvive in področja, ki še potrebujejo izboljšave. Naš cilj je pokazati, kako lahko makroregije EU združujejo pobude, povezujejo raziskave s poslovnim sektorjem in politiko ter spodbujajo sistemsko inovacije. Poleg tega bomo podpeli razpravo o prihodnjih pristopih za povečanje vpliva prizadevanj za krožno gospodarstvo v makroregijah ter začrtali konkretna korake za doseglo oprljivijih rezultatov.

This session builds on last year's discussion about the circular economy and the role of EU macro-regions. We will share updates and progress made by EU macro-regions in advancing circular economy initiatives over the past year. The focus will be on how macro-regions are leading change, inspiring regional initiatives, and developing new business models. We will also discuss the challenges and areas needing improvement. Our aim is to highlight how EU macro-regions can pool initiatives, connect research with business and policy, and foster system innovation. Additionally, we will support a debate on future approaches to enhance the impact of circular economy efforts across EU macro-regions and outline practical steps leading to tangible results.

09:00-12:00 OD VIZIJE DO UKREPOV - OBLIKOVANJE PRIHODNOSTI NAŠIH MAKROREGIJ (odprt za javnost, potrebna registracija)	FROM VISION TO ACTION – SHAPING OUR MACRO-REGIONS' FUTURE (open to the public, registration needed)	Izola, InnoRenew CoE, Livade 6a, Slovenija // Izola, InnoRenew CoE, Livade 6a, Izola, Slovenia	EN
Raznoliki trendi in številne krize vodijo do zapletenih procesov preoblikovanja družbe in gospodarstva. Ti izzivi vplivajo na vse nas, vsak od nas pa lahko aktivno sodeluje in prispeva k oblikovanju naših regije v odporno, povezano in privlačno okolje za življenje in delo. Da bi se spoprijeli s temi kompleksnimi izzivi in spodbudili regionalni razvoj, moramo okrepliti čezmejno, medsektorsko in večnivojsko sodelovanje. To vključuje pamečno in celovito uporabo različnih orodij za oblikovanje regionalne politike. Skupna vizija za naše makroregije, države, regije in organizacije, ki se osredotočajo na svoje glavne naloge in prednosti, vključujejo najboljši strokovnjake in zagotavljajo ustrezne vire, bi izjemno pripomogla k preseganju dosedanjih omejitev, raziskovanju novih načinov sodelovanja in izvajanju konkretnih ukrepov. Razpravljalci bomo o tem, kako lahko vsak deležnik aktivno prispeva k oblikovanju prihodnosti naših makroregij. Pridružite se nam na razpravi o tem, kako lahko več sodelovanja prinese pozitivne spremembe za vse nas.	Diverse trends and multiple crises lead to complex transformation processes in society and the economy. These challenges affect us all, and each of us can take an active step and contribute to shaping our region into a resilient, interconnected, and attractive place to live and work. To address these complex challenges and foster regional development, we need to invest further in cross-border, cross-sectoral, and multi-level collaboration. This also involves smart and integrated use of various instruments for regional policy making. A shared vision for our macro-regions, countries, regions and organisations concentrating on their core roles and strengths, sending their best brains and providing necessary resources, would help enormously to break up silos, explore new ways of cooperating, and implement concrete actions. This session will invite for a discussion on how each stakeholder can actively contribute to shaping the future of our macro-regions. Join the session and reflect on how more cooperation can bring positive change for us all.

	<i>Priobalni pas Izola - Koper je del širšega območja Tržaškega zaliva in obenem tudi del pilotnega območja v okviru EUSAIR za uresničevanje paradnega projekta TSG3 in sicer ICZM &amp; MSP - Spodbujanje trajnostne rasti Jadransko-jonske regije z implementacijo ICZM - integrativena upravljanja obalnih območij ter MSP - pomorskega prostorskoga načrtovanja kot prispevka k skupnemu regionalnemu načrtovanju ICZM po Barcelonski konvenciji na ravni EUSAIR. Ministrstvo pristojno za prostor je, skupaj s podporno točko za EUSAIR, igralo ključno vlogo pri ukinitvi motorne promete ter vzpostavljiti območja za kopanje in rekreacijo. Ta prostor predstavlja primer dobre prakse participativnega načrtovanja z vključevanjem javnosti in stroke v prostorskem planiranju. Dogodek bo obravnaval kompleksno tematiko gradbenih posegov v morju in na morskem obrežju, z osrednjim poudarkom na ohranjanju okoljskega stanja morja, še posebej varovanju infratloitalnih habitatov. Predstavljene bodo naravne danosti morja, zahteve in značilnosti gradbenih posegov v občutljivem prostoru ter vplivi posegov na morski in obrežni ekosistem, vključno s podnebnimi spremembami.</i>	<i>The Izola - Koper coastal zone is part of the wider area of the Gulf of Trieste and also part of the EUSAIR pilot area for the implementation of the TSG3 flagship project ICZM &amp; MSP - Integrated Coastal Zone Management and MSP- Maritime Spatial Planning, thereby contributing to the ICZM joint regional planning under the Barcelona Convention at EUSAIR level. The Ministry responsible for Spatial Planning, together with the EUSAIR Facility Point, played a key role in the abolition of motor traffic and the creation of a bathing and recreation area. This area is an example of good practice in participatory planning, involving the general public as well as spatial planning professionals. The event will address the complex issue of construction interventions in the sea and on the seafront, with a central focus on preserving the good environmental status of the sea, in particular the protection of infratloital habitats. It will present the natural features of the sea, the requirements and characteristics of construction interventions in sensitive areas, and the impacts of interventions on the marine and coastal ecosystem, including climate change.</i>	
	<i>Pri organizaciji delavnice sodeluje tudi Nacionalni odbor Desetletja oceanov, ki deluje pri Slovenski nacionalni komisiji za UNESCO. Generalna skupščina ZN je namreč leta 2017 razglasila Desetletje znanosti o oceanih za trajnostni razvoj (2021-2030) s poslanstvom oblikovanja znanj in rešitev, ki bodo preobrazile dosedanja način ravnanja z morji in oceani, zmanjšale negativne vplive nanje ter omogočile uresničevanje ciljev trajnostnega razvoja na lokalnem in globalnem nivoju.</i>	<i>The Slovenian National Ocean Decade Committee, which is part of the Slovenian National Commission for UNESCO, is also involved in the organisation of the workshop. In 2017, the UN General Assembly declared the Decade of Ocean Science for Sustainable Development (2021-2030) with the mission to develop knowledge and solutions that will transform the way oceans and seas are managed, reduce their negative impacts and enable the Sustainable Development Goals to be implemented locally.</i>

	<i>Mehke veščine so vse bolj prepozname kot ključne za uspeh in učinkovitost na delovnem mestu, zato je pomembno spodbujati njihov razvoj v učnih procesih. Na konferenci bomo razpravljali o pomenu mehkih veščin v različnih kontekstih in na različnih ravneh upravljanja, s predstavljajo izkušenj iz različnih sektorjev in makroregionalnih strategij EU (EU MRS) ter raziskovanjem njihovega prispevka k doseganju medsektorskih prednostnih nalog EUSALP.</i>	<i>Soft skills are increasingly recognised as key to be successful and effective at work, and thus it is important to foster their acquisition in learning processes. This conference discusses the value of soft skills in various contexts and at different governance levels, by sharing experiences across sectors and MRSS, and exploring their contribution to the achievement of EUSALP cross-cutting priorities.</i>	
<b>PET/FRI 20. 9.</b>			
<b>8:30 – 11:00 SESTANEK PODPORNIH STRUKTUR EU MAKROREGIONALNIH STRATEGIJ (samo za vabljene)</b>	<b>MEETING OF EU MRS SUPPORT UNITS (closed event, by invitation only)</b>	Izola, trg Etbjana Kristana 1, Slovenija // Izola, Etbjan Kristan square 1, Slovenia	EN
	<i>Podporne strukture so se izkazale kot ključni dejavnik za uspešno izvajanje makroregionalnih strategij. Zagotavljajo kontinuiteto dela in usmerjajo makroregionalne procese. Sodelovanje med podpornimi strukturami spodbuja sodelovanje med makroregijami, krepi izmenjavo in sodelovanje znanja, praks in orodij. Vsaj enkrat letno se podporne strukture srečajo na neformalem srečanju, kjer izmenjujejo informacije o tekočih in načrtovanih makroregionalnih procesih ter temah, ki zahtevajo poglobojeno obravnavo. Ta srečanja nudijo usmeritve za redna spletna srečanja v organizaciji Interact, kjer se teme obravnavajo bolj operativno in praktično. Gre za zaprt dogodek, namenjen samo osebju podpornih struktur in Interacta.</i>	<i>The MRS governance support units were recognised as a key factor in the successful implementation of the MRSs. They ensure continuity and streamline all macroregional processes. Cooperation between supporting units was recognised by MRSS as a useful mean to encourage cross-MRS cooperation in general, for sharing and co-creating knowledge, practices and tools. At least once per year supporting units meet in person at the informal meeting to exchange on the current and planned macroregional processes and agree on the topics of common interest that call for further and more in depth cooperation. This provides guidance for the regular online meetings under facilitation of Interact through which topics of the common interest are further addressed and exchange becomes more operational and practical. This is a closed session, intended only for the staff of the MRS Sus and Interact.</i>

Cilj delavnice je predstavitev in razprava o končnih priporočilih z deležniki, ki delujejo na področju pomorstva ter načrtovalci in izvajalci PPN, z namenom povezovanja z EUSAIR in Skupnostjo za prenos dobrih praks pri PPN v Sredozemlju.
